

The all-new A4 Saloon, Avant,
allroad quattro and S4 Saloon/Avant
Valid from May 2017

**From Malin to Mizen Head,
Exceptional road holding
whatever the road holds.**

Loose gravel. Icy patches. A tight bend in the rain. Conditions on the road are always changing, so quattro® changes too. Available on a variety of A4 SE and S line engines, it analyses your grip – automatically distributing power between all four wheels to where it's needed most. It's made for the most challenging conditions of all - the ones you encounter every day. Whatever the road holds, you can be confident that quattro will react.

Audi Smartphone Interface

Finding your way

You can now use your Apple and Google maps* as your navigation system. Turn-by-turn directions, traffic guidance and estimated arrival times are easy to see on your MMI screen without having to touch your phone – and addresses from your email, texts, contacts and calendar can be added as destinations. Don't forget planning your journey at home reduces data usage while on the move.

Apple and Google Maps*

Your own soundtrack

You can play music stored on your phone as you drive, controlling it simply and intuitively through the interface. Streaming services are also available, including Spotify and Google Play Music* (90-day free trial included with Android Auto).

Spotify, Apple Music and Google Play Music*

Keeping in touch

With Audi Smartphone Interface, any text messages you receive while driving can be read out to you – and if you need to respond, you can do so simply by dictating your message. But not only that. You can also use approved 3rd party apps* like WhatsApp to keep in touch while driving.

WhatsApp, Skype and Google Hangouts*

*Android systems require the download of the Android Auto app. iOS 9 or higher is required

Bring your phone to the fore.

Imagine being able to use your smartphone applications, even while driving. The Audi Smartphone Interface, optionally available on the Audi A4, lets you do just that.

Satellite navigation. Music streaming. Your contact list. Now you can access apps, approved for in-car use by Android and Apple, from the MMI controls on the A4's centre console, from the multi-function steering wheel, Audi Voice Control, or even via your smartphone's assistant, like Siri.

Simply connect your phone via USB* and approved apps appear in full colour on the central MMI screen.

Available as part of the Technology Package (WI1)

What's on your phone is now available on the road.

The Audi Smartphone Interface makes linking your phone to your car quick, safe and easy.

With Android Auto and Apple CarPlay, you can access approved apps* from your phone safely via the Audi A4's MMI system – both by voice or fingertip control. So you can make calls, receive and dictate messages, navigate, select music and podcasts and much more without taking your eyes off the road.

*Availability of applications differ by operating system and is dependent on approval by Apple or Google. Permanent availability cannot be guaranteed as this is the responsibility of Apple and Google. Smartphone Interface uses Apple CarPlay, which is available with iPhone 5 and above, or Android Auto, which is available with phones using Android 5.0 Lollipop or above.

Stay connected on the move.

The following Audi-supported services are currently available in the all-new Audi A4:

Infotainment

Online media streaming Pairing a smartphone with the Audi Music stream app offers access to worldwide radio stations and music stored on the smartphone

Weather information Gives you forecasts and maps for your chosen destination

News online (individual) Text and images from your favourite news sources with text-to-speech function

Country-specific information*
The legal regulations for a specific country, such as speed limits or whether it is compulsory to carry a high-visibility vest or display a motorway toll sticker, are displayed when crossing a border

Communication

Wi-Fi hotspot Connects your mobile devices to the internet

Twitter Enables you to tweet and receive updates on the move. With text-to-speech and other convenient text functions

Email Your emails can be transmitted to your Audi MMI and read out conveniently**

Mobility and navigation

Points of interest
Search Google™ using voice control

Navigate with Google Earth™ and Google Street View™
Uses high-resolution aerial and satellite images as well as photos to guide you to your destination with ease

Destination entry via myAudi or Google Maps™
If required, navigation destinations can be conveniently planned on your PC or smartphone. myAudi and Google Maps™ allow individual navigation destinations to be sent to the vehicle. When you start your journey, these can be easily loaded as your destination. myAudi or Google account required

myAudi – special destinations*
Import individual point-of-interest (POI) lists to your Satellite Navigation system via the myAudi portal

Map update online The map version delivered can be updated free of charge with the first 5 navigation updates which are issued at intervals of 6 months. In conjunction with Audi Connect, the update can be carried out online in the vehicle*

Flight information Get information about departure and arrival times, as well as the corresponding gates, and search directly for flight numbers

Train information Find departure and arrival times and platform information while you're on the road (also available for other types of public transport such as underground systems)

Fuel prices Information on filling stations with the cheapest prices in your selected search area

Parking information Helps you find car parks nearby and, where available, information on prices and currently vacant spaces

Please note that an external data source is required to enable Audi Connect online services. Terms and conditions apply to certain Audi Connect functions. Please see page 125 for additional information.

*For information about compatible phones please visit www.audi.com/bluetooth

**Only available when ordered in combination with Technology Pack (WI1)

Customisable control.

The information you need is always changing, so the Audi Virtual Cockpit changes too. Available as an option, it replaces the traditional dashboard with a high resolution, 12.3” LCD screen, which you can customise just by pressing the ‘view’ button on the multi-function steering wheel. Choose the ‘classic’ view, with prominent speedometer and rev counter, or the ‘infotainment’ view, which brings functions such as the navigation map or media to the fore - with crisp 3D graphics and highly detailed effects.

Everything you need to know right in front of you: it’s the embodiment of Vorsprung durch Technik.

How to build your Audi A4

Choose your trim and body style then select your options.

The following sections of this guide are designed to make it easy for you to create the Audi you've always imagined.

Stage 1. Model choice

Choose your trim for your A4 Saloon or Avant
Page 50

Stage 2. Paint

Standard, optional or Audi exclusive
Page 62

Stage 3. Wheels

17", 18" and 19" alloy wheels
Page 64

Stage 4. Performance and suspension

Steering and suspension Page 66

Stage 5. Lighting

Advanced lighting technology options
Page 68

Stage 6. Exterior equipment

Options for exterior finishing touches
Page 70

Stage 7. Seating and upholstery

Seats, colours and trim options
Page 74

Stage 8. Interior inlays

Standard or optional
Page 84

Stage 9. Interior equipment

Options for interior finishing touches
Page 86

Stage 10. Technology Packs

Advanced Technology options,
bundled for value
Page 90

Stage 11. Technology – Audio and communication

Options for music, entertainment
and information Page 96

Stage 12. Technology – Driver assistance

Advanced options for safety and visibility
Page 100

A4 Attraction

Key features that come as standard.

Attraction offers premium specification as standard. Highlights include Xenon headlights with LED daytime running lights, Automatic climate control and an Audi Sounds System. In Avant versions, an electrically retracting luggage cover are also standard, facilitating access to the most accommodating load bay in the premium compact executive estate class.

Wheels

- ▶ 17" '10-spoke design alloy wheels
- ▶ ultra TDI models come with low rolling resistance tyres
- ▶ Space-saver spare wheel
- ▶ Tool kit and car jack

Performance and suspension

- ▶ Automatic Start-Stop with coasting functionality and efficiency programme
- ▶ Electromechanical power steering
- ▶ Comfort Dynamic suspension (ultra TDI models come with Sport suspension)

Lighting

- ▶ Xenon headlights with LED daytime running lights

Exterior

- ▶ Radiator grille in Titan black with chrome inlays
- ▶ Air inlets in Titan black
- ▶ Door handles with chrome inlay
- ▶ Rear diffuser in Titan black, matt

Exterior continued

- ▶ Aluminium roof rails (Avant models only)
- ▶ High gloss package - roof frame and window trims in Aluminium, B-pillar trims and triangular rear door trim in High-gloss black
- ▶ Door mirrors – electrically adjustable and heated with integrated LED side indicators
- ▶ Body coloured door mirrors
- ▶ Windscreen with acoustic glazing

Seats

- ▶ Standard seats in Index cloth
- ▶ Manual seat adjustment including height adjustment
- ▶ Electric Lumbar Support

Interior Inlays

- ▶ Inlays in Diamond Paint Finish, silver Grey

Interior equipment

- ▶ Deluxe Automatic climate control
- ▶ 3-spoke leather trimmed multi-functional steering wheel (and paddles for automatic transmissions) – height and reach adjustable
- ▶ Door sill trims with Aluminium inlay
- ▶ Front Centre armrest
- ▶ Split folding rear seat bench in 3 parts (40/20/40) with rear centre armrest
- ▶ Electric boot lid release – (Saloon models only)
- ▶ Electric load area cover – (Avant & allroad models only)
- ▶ Interior lighting
- ▶ Front and Rear floor mats

Audio and communication

- ▶ MMI® Radio Plus with 7" colour MMI screen
- ▶ Driver Information System – 5" monochrome display
- ▶ Voice control
- ▶ Bluetooth interface
- ▶ Audi Sound System
- ▶ USB charging ports
- ▶ AUX- IN port
- ▶ CD drive

Driver assistance

- ▶ Speed Limiter limiter
- ▶ Rear parking sensors
- ▶ Keyless go
- ▶ Pre sense city
- ▶ Multi-collision brake assist

Safety and security

- ▶ Pop-up bonnet for pedestrian protection
- ▶ Electronic Stabilisation Control (ESC), including ABS, ASR and EDL
- ▶ ISOFIX child seat mounting and Top Tether
- ▶ 6 Airbag system
- ▶ Anti-theft wheel bolts
- ▶ First aid kit with warning triangle
- ▶ Seat belt monitoring

Please see page 124-125 for explanation on Recommended On-The-Road (OTR) retail prices and VRT rates. *CO₂ emissions can change if a different size alloy is ordered onto the vehicle. This may lead to a change to the VRT amount payable. Please refer to pages 64-65, 114-115, 118-119 and 125. *To be announced closer to launch, models arriving April 2016. For more details on the items listed above, please see the Glossary on pages 108-111.

A4 Attraction

Available as Saloon or Avant.

Main image. A4 Saloon Attraction in optional Manhattan grey, metallic (H1). **1.** 17" '10-spoke design alloy wheels. **2.** Xenon headlights with LED daytime running lights. Image also shows revised air inlet design when Adaptive cruise control is ordered. **3.** Standard seats in Index cloth. **4.** Electric Lumbar Support

Main image. A4 Avant in optional Manhattan grey, metallic (H1). **5.** 3-spoke leather trimmed multi-function steering with paddles for automatic transmissions. **6.** MMI Radio Plus with 7" colour MMI screen. **7.** Audi Sound System **8.** Audi Driver Information System, Monochrome display

A4 SE

Specification in addition to the Attraction model.

The popular SE trim builds off the same premium specification as SE with exterior styling upgrades for an enhanced sophisticated look. Inside, you gain MMI Navigation and an automatic three-month subscription to Audi Connect. Twin Leather seats, a Leather Multi Function steering wheel with additional commands and an LED interior lighting package are among the additional benefits.

Wheels

- ▶ 17" '5 Parallel spoke design alloy wheels
- ▶ ultra TDI models come with low rolling resistance tyres

Exterior

- ▶ Radiator grille in dark chrome high gloss and inlays in chrome.
- ▶ Air inlets in dark chrome high gloss with two horizontal inlays in chrome
- ▶ Rear diffuser in dark chrome matt
- ▶ Tailpipe trims in chrome
- ▶ Rear diffuser clip in chrome

Seats

- ▶ Front and rear seats in Twin Leather

Interior equipment

- ▶ 3-spoke leather multi-function Plus steering wheel
- ▶ LED Interior Lighting Package
- ▶ Knee Pad in Mono. Pur Leather

S4

Specification in addition or replacement to S line.

The new Audi S4 & S4 Avant assume top positions in the A4 family. The formula for Audi's success with S models is cultivated understatement - a modest, sporty look plus superior performance plus the quattro, permanent all-wheel drive.

Wheels

- ▶ 18" '5 twin-spoke star design' alloy wheels

Performance and suspension

- ▶ S Sports suspension

Exterior

- ▶ S specific front and rear bumpers and side skirts
- ▶ Radiator grille in matt grey matt with chrome inlays
- ▶ Exterior mirror housings in aluminium look
- ▶ S-specific rear bumper with black honeycomb grille
- ▶ S-specific diffuser
- ▶ Four tailpipes as part of the dual branch exhaust system
- ▶ LED headlamps with headlamps washer and dynamic range adjustment
- ▶ LED rear lamps

Seats

- ▶ Front Sport seats, electrically adjustable
- ▶ Milano leather
- ▶ 4-way electric lumbar support

Interior equipment

- ▶ Electrically adjustable front seats
- ▶ High beam assist
- ▶ Dual-zone automatic air-conditioning

Audio and communication

- ▶ MMI Navigation Plus with 8.3" colour MMI screen
- ▶ 3D map display
- ▶ MMI TouchPad
- ▶ 2 x SDXC card reader
- ▶ Driver information system, colour lay
- ▶ 3 Month Trial Access to Audi Connect Services

*Picture shows optional Audi Virtual Cockpit

The Audi A4 allroad quattro

The perfect companion in any situation. The A4 allroad quattro

The new Audi A4 allroad quattro embodies a unique concept: It combines high driving comfort with off-road qualities, thus enjoying a unique position in its segment. Thanks to the standard quattro drive and increase ground clearance, it also keeps on driving where the paved road ends.

Specification in addition or replacement to SE model.

allroad quattro equipment

- ▶ 34mm extra ground clearance

Performance and suspension

Options for ultimate handling, comfort and agility.

Comfort Dynamic suspension

Newly developed suspension system with increased comfort and agility whilst retaining sport driving characteristics.

Sport suspension

Lowered by 20mm compared to Comfort Dynamic suspension, with stiffer suspension and damping for more direct contact with the road and sportier handling.

Dynamic steering

Enhances driving dynamics and ride comfort by regulating the steering according to the driving situation. With this technology, driving is significantly more agile under everyday conditions, while directional stability and precision are increased at high speeds and in demanding driving situations.

Adaptive Comfort suspension with damping control

Electronically regulated suspension system which offers maximum ride comfort. Suspension is lowered by 10mm and adjusts to different driving situations. Dynamic or comfort-orientated characteristics for shock absorber settings adjusted via Audi Drive Select.

Adaptive Sport suspension with damping control

Electronically regulated suspension system which offers the ultimate sport ride. Suspension is lowered by 20mm (as per Sport suspension) and adjusts to different driving situations. Provides sportier response with improved comfort. Dynamic or comfort-orientated characteristics for shock absorber settings adjusted via Audi Drive Select.

It is not possible to delete Sports Suspension from ultra models.

Delete sports suspension on S line by choosing 1BA, raises an S Line by +20mm

Options are subject to availability and may extend delivery.

Lighting

Advanced headlights that adapt to the road.

Matrix LED headlights with LED rear lights & dynamic front and rear indicators

Audi Matrix LED technology provides maximum and precise illumination at all times without dazzling other road users. Using information obtained from the vehicle's sensors, camera and MMI Navigation (if equipped), Matrix Beam calculates the appropriate lighting required and automatically dips or turns off individual lighting diodes creating corridors of lights either side of the vehicle or object in front. Includes dynamic front and rear indicators which sweep from inside to out within 0.15 seconds. This helps to clearly identify not only that the vehicle is turning, but in which direction – increasing road safety.

LED headlights with LED rear lights & dynamic rear indicators

All-weather headlights with dynamic headlight adjustment and dipped beam, high beam, indicators and turning light in LED technology. Enables a near daylight illumination of the road, minimum energy consumption and long service life. Includes dynamic rear indicators which sweep from inside to out within 0.15 seconds. This helps to clearly identify not only that the vehicle is turning, but in which direction.

High-beam assist

Detects the headlights of oncoming traffic, the rear lights of other road users and light sources in built-up areas. Depending on the traffic situation, the high beam automatically adjusts to dipped beam and vice versa. The system improves the driver's visibility and ensures a more relaxed drive thanks to the extra comfort and convenience.

A4 seat colours and trim

Standard seats

Mikado cloth (N2M) – standard on Attraction No charge

Although referred to as standard, there really is nothing ordinary or standard about this seat. Comfortable, stylish and available in a choice of Black or Rock grey Mikado cloth. Seat functionality includes manual adjustment for seat forwards/backwards position, backrest angle, head restraint, seat belt height. Concept cloth in the following areas: seat upholstery, head restraints, front centre armrest and door trim inserts.

Twin leather (N1F) – Standard on SE

A new combination trim offering the comfort and style of leather but without the higher cost. For maximum durability, real leather is applied in the following areas: seat centre panels on the front seats, driver's seat bolster (entrance side only) and seat centre panels on the two outer rear seats. Leatherette trim is applied on the head restraints, seat side bolsters, door trim inserts, centre armrest and middle rear seat. Available in a choice of four leather colours.

Milano leather (N5W) – optional on SE €1,182

High quality and long lasting leather with a fine grain appearance. Milano leather is in the following areas: entire seat including head restraints and centre armrest. Door trim inserts are in leatherette. Available in a choice of four leather colours.

Upholstery	Black – YM	Rock grey – ZG
Headlining	Titanium grey	Titanium grey
Dashboard (upper/lower)	Black/Black	Granite grey/Rock grey
Carpet	Black	Granite grey

Image shows a Standard seat and 4-way electric lumbar support. All colour swatches on this page are matched as accurately as possible to the actual upholstery colours used. However, due to print processes, Audi Ireland cannot guarantee that the colours shown are 100% accurate. Visit your local Audi Dealer for a more accurate colour swatch.

A4 SE optional colours and trim

Standard seats with optional upholstery finishes.

Upgrade the upholstery on your standard seat by choosing either Twin leather or Milano leather. Both available in a choice of four colours with Rock grey and Atlas beige additionally available with a two tone dashboard.

A4 S line colours and trim

Front Sport seats with S embossed logo

Leather/Alcantara (N7V) – Standard on S line

Unique to the S line, standard Front Sport seats with Leather / Alcantara upholstery come with ‘S’ embossing on the front seat backs and the added functionality of electric 4-way lumbar support. The seats not only have a sporty design but also offer a firmer and more supported driving style with extended thigh support and prominent side bolsters which improve lateral support. Seat functionality includes manual adjustment for seat height, seat forwards/backwards position, backrest angle, head restraint and seat belt height. Unique to S line, Alcantara with an embossed pattern and contrast stitching enhances the styling of your seats, offers additional grip for sportier driving and at the same time provides added comfort across the seasons. Seat centre, shoulder panels and door inserts in patterned Alcantara. Seat side bolsters, head restraint and front centre armrest in leather.

Enhanced with contrast stitching in the following areas: seats, steering wheel, gear lever, armrest and floor mats.

Fine Nappa leather (N3M) – optional on S line €1,265

Upgrade S line seats to the highest quality, supple Fine Nappa leather which is breathable, durable and features a natural fine grain. Seat upholstery, head restraints, and front centre armrest in Fine Nappa leather. Door trim inserts in Alcantara.

A4 Seat options

Further options to enhance your seats.

4-way electric lumbar support

For front seats with horizontal and vertical adjustment to further increase seat comfort.

Electrically adjustable front seats

Electric adjustment for seat height, seat forwards/backwards position, seat angle and backrest angle.

Electrically adjustable front seats with memory function for the driver's side

Electric adjustment of both front seats with memory function for the driver's side. Includes the following: Electric adjustment for seat height, seat forwards/backwards position; seat angle and backrest angle; Electric 4-way lumbar support; Two memory spaces for the electrically adjustable driver's seat and exterior mirrors.

Heated front seats

Heating for seat and backrest centre panels. When in combination with Sport seats and leather upholstery, the side bolsters are also heated. Individually adjustable in several stages for driver and front-passenger side via the air-conditioning controls.

Heated front and outer rear seats

Works in the same way as front seat heating, enabling you to regulate the outer rear seats separately.

Interior equipment

Practical options for advanced storage and stowage.

Storage Pack

Includes the following items in the car: Storage net on the back of the front seat backrests ▶ Storage compartment driver's side ▶ Lockable glove box ▶ Rear centre armrest. Includes the following in the luggage compartment ▶ Tensioning straps, left and right (Avant) ▶ Bag hook (Saloon) ▶ 12V socket ▶ Luggage nets.

Rails system with load-securing kit

Flexible system for securing objects in the A4 Avant luggage compartment. A telescopic bar and securing strap enable the luggage compartment to be divided diagonally and/or horizontally. 4 x sliding lashing points on the rail provide additional fastening options. After use, the kit can be stowed away in the loading floor.

Variable foldable trunk mat

Increase the everyday usability of the A4 Avant luggage area, with a reversible, flexible rubber mat. The entire load area even with folded rear seat backrest, can be covered to protect against dirt or damage. Or, if the trunk mat is installed horizontally, the side panel trims of the luggage compartment can be covered. Or, the mat can be used flexibly to divide the luggage area into individual compartments. Thanks to its compact design, the trunk mat can be stowed away to the side of the luggage compartment.

Rear side airbags

For the outer rear seats, incorporated into the seat backrests; supplements the standard airbag systems.

Variable head restraints for front seats

With manual adjustment of headrest height, tilt and distance.

Technology Pack

Technology Pack WI1

This pack brings together the most popular technology options that are frequently ordered together and offers exceptional customer value versus the price of the individual items. This pack is essential for those wanting the highest level of connectivity and navigation system.

MMI Navigation Plus with MMI touch. In addition to standard MMI Radio Plus*, includes the following:

- ▶ 8.3" high resolution, colour MMI display with aluminium frame
- ▶ Touch-sensitive control panel for fast, intuitive operation, handwriting recognition, and ability to move and zoom freely on the map
- ▶ Integrated navigation with 3D map display of places of interest
- ▶ Online map updates
- ▶ Detailed route information: map preview, choice of alternative routes, POIs, lane recommendations, motorway exits, detailed junction maps and more
- ▶ Dynamic route guidance traffic updates with TMCpro (in conjunction with Audi Connect: traffic information online, where available through 3rd party providers)
- ▶ MMI search: Free text search with intelligent suggestions provided during entry
- ▶ Natural voice recognition
- ▶ Jukebox hard drive memory for music (10 GB)
- ▶ DVD drive for music CDs and video DVDs
- ▶ 2xSDXC memory card reader.

MMI Navigation Plus with Touch

Audi Smartphone Interface - Connects your smartphone with your A4 bringing your mobile content seamlessly via USB directly into the MMI display. Navigation, telephone, music and selected third-party apps can be easily controlled via the MMI controller and via voice control system.

Audi Connect- Access to a portfolio of services on Audi Connect for 3 years is included in the package. Please note a data connection is necessary to avail of these services and additional charges will be incurred when using the services. Services on Audi Connect include: Navigation with Google Maps and Google Earth, Online News, Point of Interest Search, Twitter, Plane and Train Information.

Audi Smartphone Interface

Audi Virtual Cockpit Innovative 12.3" full colour digital instrument cluster for the flexible display of information tailored to the driver's needs. Displays the following:

- ▶ Vehicle/engine speed
- ▶ 3D Navigation map
- ▶ Audi Connect services
- ▶ Radio/media information
- ▶ Driver assistance systems
- ▶ All MMI functionalities (e.g. Telephone, Car settings etc). The 'view' button on the multi-function steering wheel allows you to change between 2 differently sized representations of the instrument dials. The display with small instruments allows the onboard computer and MMI contents to be shown on across the full display area.

Audi Phone Box with wireless charging Offers improved reception quality and wireless charging (with Qi enabled compatible phones). For more information, see full option description of Audi Phone Box on page 99. Audi Phone Box option also provides an additional bluetooth interface for a second device meaning two mobile phones can be connected to the vehicle simultaneously.

Business Package

Business Package W12

A pack that adds value, by combining some of our most popular options designed to offer convenience as well as enhancing your driving comfort, premium experience and pleasure.

Storage Package - Ac Includes the following items in the car: Storage net on the back of the front seat backrests ▶ Storage compartment driver's side ▶ Lockable glove box ▶ Rear centre armrest. Includes the following in the luggage compartment Tensioning straps, left and right (Avant) ▶ Bag hook (Saloon) 12V socket ▶ Luggage nets.

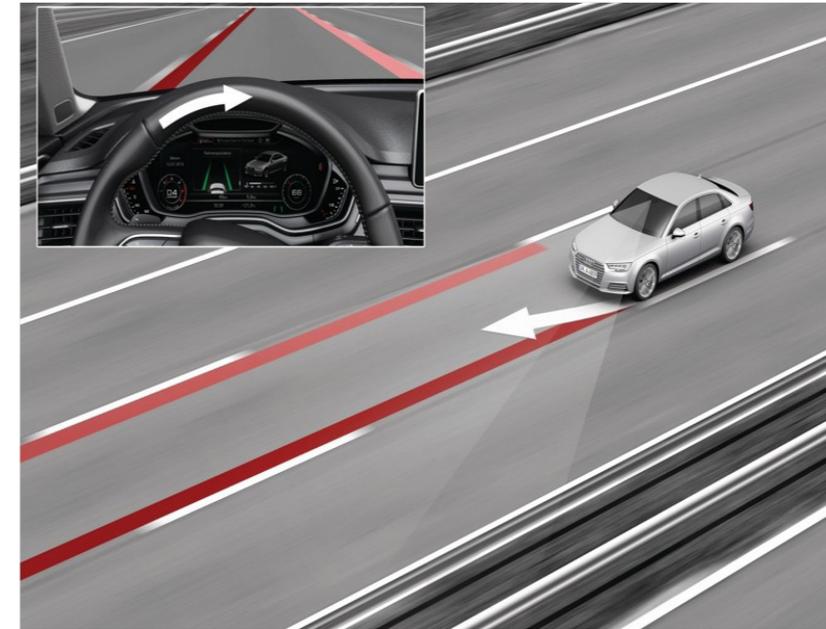

Traffic Sign Recognition - Speed limit and traffic sign display via the Driver's Information System (DIS) or optional Head-up display. Detects the following signs: speed limits (including temporary limits), overtaking restrictions and no-entry warnings.

Traffic Sign Recognition

Luggage Package

Audi Lane Assist + Audi Adaptive Cruise Control

Audi Lane Assist - Detects lane boundary markings and helps the driver to stay in lane with gentle steering intervention for greater safety and convenience, particularly on motorways. Works at speeds above 50 kph.

Audi Adaptive Cruise Control with Stop & Go and Traffic Jam Assist - Automatic distance regulation, using radar sensors to maintain the required distance between vehicles ahead by braking and accelerating. With the Stop & Go function, the system brakes the car to a stop. The driver can select from 5 warning thresholds and influence the systems acceleration behaviour via Audi Drive Select. Traffic jam assist detects vehicles ahead and on adjacent lanes to assist with the braking, acceleration and also steering up to 50kph, to keep the vehicle in lane. Adaptive cruise requires additional sensors in the lower air inlets, and results in a change to the design of the inlets and differs dependant on trim

High beam assist Detects the headlights of oncoming traffic, the rear lights of other road users and light sources in built-up areas. Depending on the traffic situation, the high beam automatically adjusts to dipped beam and vice versa. The system thereby improves the driver's visibility and ensures a more relaxed drive thanks to the extra comfort and convenience.

High beam assist

Technology - Audio & communication

Your options for music and entertainment.

Bang & Olufsen 3D sound system

The ultimate premium sound experience in your A4 with concert hall acoustics and for the first time, with 3D stereo surround sound. The system features 19 loudspeakers, including a subwoofer and centre loudspeaker and a 16-channel amplifier with an impressive total output of 755 watts. The natural 3D surround sound is created with additional speakers in the A-pillar, which now create a new height dimension in sound in addition to depth and width. This creates a previously unknown feeling of space in the car. Includes speed sensitive volume adjustment and illuminated loudspeakers within the front doors.

Audi sound system

Impressive sound with 10 loudspeakers including centre speaker and subwoofer, 6-channel amplifier with a total output of 180 watts.

Miracast Wi-Fi or Bluetooth. Includes two sets of headphones, USB cable and storage bag.

Audi Entertainment Mobile

Includes two detachable high definition 10.1" touch screens fitted to the back of the front seats (supplied by Audi Genuine Accessories*). The back of the front seats are fitted with mountings and power connections. The system can be used outside the car with rechargeable battery, which is included in the package. Content is either streamed from your iOS (iPhone) or Android (Samsung, HTC, Sony etc) smartphone via an Audi App, via an integrated SD card reader, USB cable,

Audi Virtual Cockpit

Innovative 12.3-inch full colour digital instrument cluster for the flexible display of information tailored to the driver's needs. Displays the following: ▶ Vehicle/engine speed ▶ 3D Navigation map ▶ Audi Connect services ▶ Radio/media information ▶ Driver assistance systems ▶ All MMI functionalities (e.g. Telephone, Car settings etc). The 'view' button on the multi-function steering wheel allows you to change between two differently sized representations of the instrument dials. The display with small instruments allows the onboard computer and MMI contents to be shown across the full display area.

MMI Navigation (SD card based)

In addition to standard MMI Radio Plus, includes the following:

- ▶ Integrated navigation with 3D map display
- ▶ Detailed route information: map preview, choice of alternative routes, POIs, lane recommendations, motorway exits, detailed junction maps and more
- ▶ Dynamic route guidance with TMCpro (in conjunction with Audi Connect: traffic information online)
- ▶ MMI search: Free text search with intelligent suggestions provided during entry
- ▶ Natural voice recognition
- ▶ 2xSDXC memory card reader

For details on MMI Radio Plus please refer to the Glossary on page 110

Audi Phone Box with wireless charging

Enables drivers to use their mobile phone in the car by placing it in the storage compartment provided in the front centre console to create a wireless connection to the vehicle aerial, improving reception quality. Operated via the MMI control panel, the multi-function steering wheel or the voice control system. Wireless charging available (with Qi enabled compatible phones) or via USB port. For information on compatible mobile phones please see audi.co.uk. Audi Phone Box option also provides an additional Bluetooth interface for a second device meaning two mobile phones can be connected to the vehicle simultaneously.

Technology - Driver assistance

Driver Assistance Pack - Tour PCN

With busier roads than ever, Audi technology can keep an extra eye out. This pack brings together the driver assistance systems that support long distance driving, especially when driving in congestion and varying average speed limit zones. As well as helping you to drive more efficiently, the pack also includes advanced safety systems.

Pre-sense front - Extends the collision warning and automatic braking function of pre-sense city to cover the entire speed range and can also increase braking initiated by the driver if this is inadequate. The system uses the camera located on the front rear-view mirror to detect vehicles and pedestrians in front in order to reduce severity of a collision, or if possible prevent an accident. The driver is first given a visual and acoustic warning followed by partial braking and then full brake application.

Camera based traffic sign recognition - Speed limit and traffic sign display via the Driver's Information System (DIS) or optional Head-up display. Detects the following signs: speed limits (including temporary limits), overtaking restrictions and no-entry warnings.

Collision avoidance assistant - Supports the driver's actions during an avoidance manoeuvre reducing the likelihood of a collision or of swerving off the road. The system provides additional steering torque and uses vehicle sensors to calculate the optimum path of avoidance.

Turn Assist - When turning at junctions, from the moment the turn indicators are activated, the turn assist system detects approaching vehicles and applies braking to help avoid a collision.

Active Lane Assist - Detects lane boundary markings and helps the driver to stay in lane with gentle steering intervention for greater safety and convenience, particularly on motorways. Works at speeds above 50kph.

Camera based traffic sign recognition**

Active Lane Assist*

*Vehicle driver assistance and safety systems are not a substitute for attentive driving. Drivers retain full responsibility for providing the necessary inputs for safe control of the vehicle. System descriptions within this brochure are provided for information purposes only. System limitations and operational requirements apply. See manual for details.

**Images show display on optional Audi Virtual Cockpit, Display will appear on the 7" colour DIS without this option.

Adaptive Cruise Control with Stop & Go and Traffic jam assist**

Adaptive Cruise Control with Stop & Go and Traffic jam assist - Automatic distance regulation, using radar sensors to maintain the required distance between vehicles ahead by braking and accelerating. With the Stop & Go function, the system brakes the car to a stop. The driver can select from 5 warning thresholds and influence the systems acceleration behaviour via Audi Drive Select. Traffic jam assist detects vehicles ahead and on adjacent lanes to assist with the braking, acceleration and also steering up to 50kph, to keep the vehicle in lane. Adaptive cruise requires additional sensors in the lower air inlets, and results in a change to the design of the inlets and differs dependant on trim.

Predictive efficiency assistant**

Predictive efficiency assistant - The system uses navigation data e.g. speed limits, traffic signs, road bends, junctions and roundabouts to give the driver efficiency advice in the instrument cluster (or via the optional Audi Virtual Cockpit). In conjunction with the Adaptive Cruise Control (ACC), the system uses the route data and speed limits to adjust the ACC desired speed and cornering accordingly. With automatic transmissions, the system activates free-wheeling mode or engine braking, which can help reduce fuel consumption up to 10% and enhances ride comfort.

Technology - Driver assistance

Parking Assistance Pack PCF

Enhancing the rear parking sensors that come as standard, this pack adds front sensors and all-round cameras to optimise your view while parking - and can even help you find and manoeuvre into a parking space.

Parking assist - Searches for suitable parking spaces along the road by means of ultrasonic sensors, calculates the ideal parking path and performs the steering action virtually automatically. Steering is done by the vehicle; the driver need only accelerate and apply the brakes.

360° camera showing birds eye view

360° cameras - Wide angle lenses cover the close range around the vehicle. The driver can choose between different image representations in the MMI display, including a live “bird’s eye view” image for parking. Includes guidelines which help the driver manoeuvre and navigate the vehicle into the right position.

Parking assist

Options are subject to availability and may extend delivery.

Parking Assistance Pack Advanced PCZ

In addition to the contents of the Parking Assistance Pack, this pack includes the latest technology to provide help in busy traffic situations, when changing lane, exiting your car and when reversing - for the convenience and protection of all occupants.

Audi Side Assist - Aids the driver when changing lane. Audi side assist monitors the area behind the vehicle, using radar sensors located discreetly in the rear bumper, informing the driver with a visual warning signal in the door mirror if there is a vehicle in their blind spot or approaching quickly from behind.

Cross Traffic Assist Rear - Warns the driver of traffic crossing behind their own vehicle when reversing. The system alerts the driver first visually and then acoustically via the MMI, and then applies the brakes if a potential collision is detected.

Exit Warning - Monitors the rear and side of your stationary A4 and warns the occupants via a warning light on the door before they exit that vehicles/cyclists are approaching from behind.

Cross Traffic Assist Rear

Audi Pre-sense Basic - Audi pre-sense is a comprehensive technical package for identifying dangers well in advance and intervening appropriately to provide extra safety and protection. Where necessary, actions are taken to protect the driver and passengers from a potential collision. These include: belt tightening, activating the hazard warning system, closing the windows and the sunroof (if fitted).

Audi Pre-sense Rear - It monitors vehicles following from behind and if a potential collision is detected, the driver is first warned visually via flashing light, then Audi Pre-sense basic measures (e.g. closing windows) are initiated and then if a collision is unavoidable, the system will tighten the front seat belts. The system is deactivated when towing.

Exit warning

		Attraction	SE	S line
PCZ	Parking Assistance Pack Advanced. Only available with optional mirrors (6XE, 6XF, 6XL) and Technology Pack (WI1)	€2,629	€2,629	€2,657

Vehicle driver assistance and safety systems are not a substitute for attentive driving. Drivers retain full responsibility for providing the necessary inputs for safe control of the vehicle. System descriptions within this brochure are provided for information purposes only. System limitations and operational requirements apply. See manual for details.

Technology - Driver assistance

Advanced options to help you on and off the road.

Head-up display

Projects warning messages or driving-related information from assistance systems and the navigation system (if ordered) in full colour onto the windscreen in the driver's direct field of vision, giving the driver faster access to information. Display is adjustable in height.

Camera-based traffic sign recognition

Speed limit and traffic sign display via the Driver's Information System (DIS) or optional Head-up display. Detects the following signs: speed limits (including temporary limits), overtaking restrictions and no-entry warnings.

Parking system plus

Acoustic and visual park assist system for the front and rear with MMI screen display showing the calculated path (steer-angle dependent) including guidelines. Measurement is by ultrasonic sensors concealed in the bumpers.

Rearview camera

An image of the area behind the vehicle is shown on the MMI display. Reversing camera is concealed in the handle strip of the luggage compartment lid.

Advanced key with electric hands-free boot opening system

Access and authorisation system that works through automatic data exchange between key and vehicle, allowing the driver to keep their car key in their pocket or bag at all times. To unlock and open, simply lift the exterior door handle. Pressing the Start/Stop button integrated in the centre console starts and stops the engine. Also includes an electric hands-free bootlid release sensor located underneath the rear bumper, which can be operated by a simple kicking movement underneath the sensor.

Audi A4 allroad quattro options

Advanced options to help you on and off the road.

Perfect companion in any situation

The new Audi A4 allroad quattro is defined by its individual look. The powerfully flared wheel arches and the rear bumper attract attention. They are finished in matt structure gray or painted in the body color (option VJ1). The robust underbody guard and the rear diffuser are finished in selenite silver. The sporty, distinctive front end with jagged headlights, unique bumper and model-specific air intakes underscores its extroverted character. Vertical chrome slats adorn the sculpted Singleframe grille. “allroad” badges decorate the front fenders and the tailgate. The higher roof rails round out the typical “allroad” look

		allroad
VJ1	Full Body Paint finish	€1,365

Audi Genuine Accessories

Personalise your Audi today.

Make your Audi A4 your own by adding some genuine accessories. All created by Audi and specially crafted for our models, so they'll deliver the high standards you'd expect. What you see here is just a selection. See the full collection at audi.co.uk/accessories

Rubber/Textile floor mats

Protect the A4 interior from muddy feet and daily wear and tear.

Boot liner

Avoid damage while loading and unloading luggage.

Roof bars

Transport larger items, from bikes to snowboards.

Roof box

Add to the A4's already generous luggage capacity.

Audi entertainment mobile

Keep rear seat passengers entertained with the double screen package.

Laptop bag

Keep everything organised while you travel.

A4 Saloon technical data

Key information about your car.

All of our A4 engines meet EU6 emissions standards. For Diesel engines, this means the addition of an AdBlue® tank to ensure compliance. The AdBlue® tank size for your engine is shown below and it may require a top-up between services.

²Fuel consumption and CO₂ emissions figures are obtained under standardised test conditions (Directive 93/116/EEC) using a representative model. This allows direct comparison between different models from different manufacturers, but may not represent the actual fuel consumption achieved in 'real world' driving conditions. More information is available at <http://ec.europa.eu/environment/air/transport/road.htm>

A4 Avant technical data

Key information about your car.

All of our A4 engines meet EU6 emissions standards. For Diesel engines, this means the addition of an AdBlue® tank to ensure compliance. The AdBlue® tank size for your engine is shown below and it may require a top-up between services.

²Vehicle's unladen weight without driver (calculated in accordance with the current version of Directive (80/1268/EEC).The fitting of additional equipment may increase the vehicle's unladen weight and drag coefficient, whereupon the potential carrying capacity and top speed will be correspondingly reduced. ³The engine's power output always goes down with increasing altitude. At 1,000m above sea level, and for every additional 1,000m, deduct 10% from the weight of the outfit (trailer load limit + gross weight of the towing vehicle).⁴Highest insurance group rating shown. Group may be lower dependent on trim level. Please visit www.thatcham.org/abigrouprating for details.

A4 Avant technical data

Depending on your chosen A4 wheel size, different efficiency figures for CO₂ emissions and fuel consumption will apply (based on EU directive no. 715/2007 effective 01/09/14). This table is a quick reference guide to assist you in finding the correct values based on wheel sizes and your chosen engine.

		Petrol			Diesel		
Engine		1.4 TFSI**	2.0 TFSI	2.0 TFSI	2.0 TDI ultra*	2.0 TDI ultra*	2.0 TDI
