The all-new Q5  
Product & Price Guide 2018  
May 2017

# quattro

## **From Malin to Mizen Head, Exceptional road holding whatever the road holds.**

Loose gravel. Icy patches. A tight bend in the rain. Conditions on the road are always changing, so quattro® changes too. quattro analyses your grip – automatically distributing power between all four wheels to where it's needed most.

It's made for the most challenging conditions of all - the ones you encounter every day.

Whatever the road holds, you can be confident that quattro will react.

# Audi Smartphone Interface

# Smartphone

## Finding your way

You can now use your Apple and Google maps\* as your navigation system. Turn-by-turn directions, traffic guidance and estimated arrival times are easy to see on your MMI screen without having to touch your phone – and addresses from your email, texts, contacts and calendar can be added as destinations. Don't forget planning your journey at home reduces data usage while on the move.

Apple and Google Maps\*

## Your own soundtrack

You can play music stored on your phone as you drive, controlling it simply and intuitively through the interface. Streaming services are also available, including Spotify and Google Play Music\* (90-day free trial included with Android Auto).

Spotify, Apple Music and Google Play Music\*

## Keeping in touch

With Audi Smartphone Interface, any text messages you receive while driving can be read out to you – and if you need to respond, you can do so simply by dictating your message. But not only that. You can also use approved 3rd party apps\* like WhatsApp to keep in touch while driving.

WhatsApp, Skype and Google Hangouts\*

## Bring your phone to the fore.

Imagine being able to use your smartphone applications, even while driving. The Audi Smartphone Interface is standard on the Audi Q5.

Satellite navigation. Music streaming. Your contact list. Now you can access apps, approved for in-car use by Android and Apple, from the MMI controls on the Q5's centre console, from the multi-function steering wheel, Audi Voice Control, or even via your smartphone's assistant, like Siri.

Simply connect your phone via USB\* and approved apps appear in full colour on the central MMI screen.

## What's on your phone is now available on the road.

The Audi Smartphone Interface makes linking your phone to your car quick, safe and easy.

With Android Auto and Apple CarPlay, you can access approved apps\* from your phone safely via the Audi Q5's MMI system – both by voice or fingertip control. So you can make calls, receive and dictate messages, navigate, select music and podcasts and much more without taking your eyes off the road.

\*Availability of applications differ by operating system and is dependent on approval by Apple or Google. Permanent availability cannot be guaranteed as this is the responsibility of Apple and Google. Smartphone Interface uses Apple CarPlay, which is available with iPhone 5 and above, or Android Auto, which is available with phones using Android 5.0 Lollipop or above.

Infotainment

## Stay connected on the move.

The following Audi-supported services are currently available in the all-new Audi Q5:

### Infotainment

**Online media streaming** Pairing a smartphone with the Audi Music stream app offers access to worldwide radio stations and music stored on the smartphone

**Weather information** Gives you forecasts and maps for your chosen destination

**News online (individual)** Text and images from your favourite news sources with text-to-speech function

#### **Country-specific information\***

The legal regulations for a specific country, such as speed limits or whether it is compulsory to carry a high-visibility vest or display a motorway toll sticker, are displayed when crossing a border

### Communication

**Wi-Fi hotspot** Connects your mobile devices to the internet

**Twitter** Enables you to tweet and receive updates on the move. With text-to-speech and other convenient text functions

**Email** Your emails can be transmitted to your Audi MMI and read out conveniently\*\*

## Mobility and navigation

### Points of interest

Search Google™ using voice control

### Navigate with Google Earth™ and Google Street View™

Uses high-resolution aerial and satellite images as well as photos to guide you to your destination with ease

### Destination entry via myAudi or Google Maps™

If required, navigation destinations can be conveniently planned on your PC or smartphone. myAudi and Google Maps™ allow individual navigation destinations to be sent to the vehicle. When you start your journey, these can be easily loaded as your destination. myAudi or Google account required

### myAudi – special destinations\*

Import individual point-of-interest (POI) lists to your Satellite Navigation system via the myAudi portal

**Map update online** The map version delivered can be updated free of charge with the first 5 navigation updates which are issued at intervals of 6 months. In conjunction with Audi Connect, the update can be carried out online in the vehicle\*

**Flight information** Get information about departure and arrival times, as well as the corresponding gates, and search directly for flight numbers

**Train information** Find departure and arrival times and platform information while you're on the road (also available for other types of public transport such as underground systems)

**Fuel prices** Information on filling stations with the cheapest prices in your selected search area

**Parking information** Helps you find car parks nearby and, where available, information on prices and currently vacant spaces

Please note that an external data source is required to enable Audi Connect online services.

Terms and conditions apply to certain Audi Connect functions. Please see page 125 for additional information.

\*For information about compatible phones please visit [www.audi.com/bluetooth](http://www.audi.com/bluetooth)

## Customisable control.

The information you need is always changing, so the Audi Virtual Cockpit changes too. Available as an option, it replaces the traditional dashboard with a high resolution, 12.3" LCD screen, which you can customise just by pressing the 'view' button on the multi-function steering wheel. Choose the 'classic' view, with prominent speedometer and rev counter, or the 'infotainment' view, which brings functions such as the navigation map or media to the fore - with crisp 3D graphics and highly detailed effects.

Everything you need to know right in front of you: it's the embodiment of Vorsprung durch Technik.

# How to build your Audi Q5

Choose your trim and body style then select your options.

The following sections of this guide are designed to make it easy for you to create the Audi you've always imagined.

## Stage 1. Model choice

Choose your trim for your Q5  
Page 50

## Stage 2. Paint

Standard, optional or Audi exclusive  
Page 62

## Stage 3. Wheels

# Q5 SE

## Key features that come as standard.

SE offers premium specification as standard. Highlights include Xenon headlights with LED daytime running lights, automatic boot lid and an Audi Sound System.

### Wheels

- ▶ 18" 5-twin spoke design alloy wheels
- ▶ Tyre repair kit
- ▶ First aid kit and warning triangle

### Performance and suspension

- ▶ Automatic Start-Stop with coasting functionality and efficiency programme
- ▶ Electromechanical power steering
- ▶ Comfort Dynamic suspension

### Lighting

- ▶ Xenon headlights with LED daytime running lights
- ▶ LED rear lights

### Exterior

- ▶ Radiator grille with chrome inlays
- ▶ Air inlets in with matt titanium inserts
- ▶ Rear diffuser in titan black, matt with titanium inserts

### Exterior continued

- ▶ Aluminium roof rails
- ▶ High gloss package - roof frame and window trims in Aluminium, B-pillar trims and triangular rear door trim in High-gloss black
- ▶ Door mirrors – electrically adjustable, folding and heated with integrated LED side indicators
- ▶ Body coloured door mirrors
- ▶ Windscreen with acoustic glazing

### Seats

- ▶ Standard seats in twin leather
- ▶ Manual seat adjustment including height adjustment
- ▶ Heated front seats

### Interior Inlays

- ▶ Inlays in aluminium rhombus

### Interior equipment

- ▶ Deluxe automatic climate control
- ▶ 3-spoke leather trimmed multi-functional steering wheel plus – height and reach adjustable
- ▶ Door sill trims with Aluminium inlay
- ▶ Split folding rear seat bench in 3 parts (40/20/40) with rear centre armrest
- ▶ Electric boot lid release
- ▶ Interior lighting
- ▶ Front and Rear floor mats
- ▶ LED interior lighting pack

## Audio and communication

- ▶ MMI Navigation with 7" colour MMI screen
  - ▶ 3D map display
  - ▶ MMI search
  - ▶ 2 x SDXC card reader
  - ▶ Driver information system, colour with 7" display
  - ▶ 3 Month Trial Access to Audi Connect Services
- ▶ Voice control
- ▶ Bluetooth interface
- ▶ Audi Sound System
- ▶ USB charging ports
- ▶ AUX- IN port
- ▶ CD drive
- ▶ Audi smartphone interface

## Driver assistance

- ▶ Cruise control
- ▶ Front & rear parking sensors
- ▶ Keyless go
- ▶ Pre sense city
- ▶ Audi drive select

## Safety and security

- ▶ Pop-up bonnet for pedestrian protection
- ▶ Electronic Stabilisation Control (ESC),

# Performance and suspension

## Options for ultimate handling, comfort and agility.

### Comfort Dynamic suspension

Newly developed suspension system with increased comfort and agility whilst retaining sport driving characteristics.

### Sport suspension

Lowered by 20mm compared to Comfort Dynamic suspension, with stiffer suspension and damping for more direct contact with the road and sportier handling.

### Adaptive Comfort suspension with damping control

Electronically regulated suspension system which offers maximum ride comfort. Suspension is lowered by 10mm and adjusts to different driving situations. Dynamic or comfort-orientated characteristics for shock absorber settings adjusted via Audi Drive Select.

		SE	S line
1BA	<b>Comfort Dynamic suspension</b>	Standard	No charge
1BV	<b>Sport suspension</b> -20mm drop from Dynamic Suspension	N/A	Standard

1. Xenon headlights with LED rear lights. 2. LED rear lights  
3. LED headlights with LED rear lights and dynamic rear indicators. 4. LED rear lights with dynamic indicators.

# Lighting

## Advanced headlights that adapt to the road.

### Matrix LED headlights with LED rear lights & dynamic front and rear indicators

Audi Matrix LED technology provides maximum and precise illumination at all times without dazzling other road users. Using information obtained from the vehicle's sensors, camera and MMI Navigation (if equipped), Matrix Beam calculates the appropriate lighting required and automatically dips or turns off individual lighting diodes creating corridors of lights either side of the vehicle or object in front. Includes dynamic front and rear indicators which sweep from inside to out within 0.15 seconds. This helps to clearly identify not only that the vehicle is turning, but in which direction – increasing road safety.

### LED headlights with LED rear lights & dynamic rear indicators

All-weather headlights with dynamic headlight adjustment and dipped beam, high beam, indicators and turning light in LED technology. Enables a near daylight illumination of the road, minimum energy consumption and long service life. Includes dynamic rear indicators which sweep from inside to out within 0.15 seconds. This helps to clearly identify not only that the vehicle is turning, but in which direction.

### High-beam assist

Detects the headlights of oncoming traffic, the rear lights of other road users and light sources in built-up areas. Depending on the traffic situation, the high beam automatically adjusts to dipped beam and vice versa. The system improves the driver's visibility and ensures a more relaxed drive thanks to the extra comfort and convenience.

		SE	S line
PXC	<b>Matrix LED headlights with LED rear lights &amp; dynamic front and rear indicators</b> Also available in Light and Vision Pack (WB7, 9S8)	€2,702	€647

# Q5 seat colours and trim

## Standard seats

### **Twin leather – Standard on SE**

A new combination trim offering the comfort and style of leather but without the higher cost. For maximum durability, real leather is applied in the following areas: seat centre panels on the front seats, driver's seat bolster (entrance side only) and seat centre panels on the two outer rear seats. Leatherette trim is applied on the head restraints, seat side bolsters, door trim inserts, centre armrest and middle rear seat. Available in a choice of three leather colours.

### **Milano leather (N5W) – optional on SE €1,208**

High quality and long lasting leather with a fine grain appearance. Milano leather is in the following areas: entire seat including head restraints and centre armrest. Door trim inserts are in leatherette. Available in a choice of three leather colours.

Image shows a Standard seat and optional 4-way electric lumbar support. All colour swatches on this page are matched as accurately as possible to the actual upholstery colours used. However, due to print processes, Audi Ireland cannot guarantee that the colours shown are 100% accurate. Visit your local Audi Dealer for a more accurate colour swatch.

# Q5 S line colours and trim

## Front Sport seats with S embossed logo

### Leather/Alcantara (N7N) – Standard on S line

Unique to the S line, standard Front Sport seats with Leather / Alcantara upholstery come with 'S' embossing on the front seat backs.

The seats not only have a sporty design but also offer a firmer and more supported driving style with extended thigh support and prominent side bolsters which improve lateral support.

Seat functionality includes manual adjustment for seat height, seat forwards/backwards position, backrest angle, head restraint and seat belt height.

Unique to S line, Alcantara with an embossed pattern and contrast stitching enhances the styling of your seats, offers additional grip for sportier driving and at the same time provides added comfort across the seasons. Seat centre, shoulder panels and door inserts in patterned Alcantara. Seat side bolsters, head restraint and front centre armrest in leather.

Enhanced with contrast stitching in the following areas: seats, steering wheel, gear lever, armrest and floor mats.

### Fine Nappa leather with diamond pattern

#### (N2R) – optional on S line €1,309

Upgrade S line seats to the highest quality, supple Fine Nappa leather which is breathable, durable and features a natural fine grain. Seat upholstery, head restraints, and front centre armrest in Fine Nappa leather. Door trim inserts in Alcantara.

### Forces Rear Seat Bench Plus (3NS)

Headlining	Black	Black
Dashboard (upper/lower)	Black/Black	Black/Black
Carpet	Black	Black

All pricing is RRP including VAT. Option pricing is based off VRT band B2. Options are subject to availability and may extend delivery.

# Q5 Seat options

## Further options to enhance your seats.

### 4-way electric lumbar support

For front seats with horizontal and vertical adjustment to further increase seat comfort.

### Electrically adjustable front seats

Electric adjustment for seat height, seat forwards/backwards position, seat angle and backrest angle.

### Electrically adjustable front seats with memory function for the driver's side

Electric adjustment of both front seats with memory function for the driver's side. Includes the following: Electric adjustment for seat height, seat forwards/backwards position; seat angle and backrest angle; Electric 4-way lumbar support; Two memory spaces for the electrically adjustable driver's seat and exterior mirrors.

### Heated front seats

Heating for seat and backrest centre panels. When in combination with Sport seats and leather upholstery, the side bolsters are also heated. Individually adjustable in several stages for driver and front-passenger side via the air-conditioning controls.

### Heated front and outer rear seats

Works in the same way as front seat heating, enabling you to regulate the outer rear seats separately.

1. Extended LED interior lighting pack multi-coloured (QQ2). 2. Audi smartphone interface (standard).

1. Storage pack (QE1). 2. Rail system with load securing kit (3GN).

# Interior equipment

## Practical options for advanced storage and stowage.

### Storage Pack

Includes the following items in the car: Storage net on the back of the front seat backrests ▶ Storage compartment driver's side ▶ Lockable glove box ▶ Rear centre armrest.

Includes the following in the luggage compartment

- ▶ Tensioning straps, left and right
- ▶ 12V socket ▶ Luggage nets.

### Rails system with load-securing kit

Flexible system for securing objects in the Q5 luggage compartment. A telescopic bar and securing strap enable the luggage compartment to be divided diagonally and/or horizontally. 4 x sliding lashing points on the rail provide additional fastening options. After use, the kit can be stowed away in the loading floor.

### Variable foldable trunk mat

Increase the everyday usability of the Q5 luggage area, with a reversible, flexible rubber mat. The entire load area even with folded rear seat backrest, can be covered to protect against dirt or damage. Or, if the trunk mat is installed horizontally, the side panel trims of the luggage compartment can be covered. Or, the mat can be used flexibly to divide the luggage area into individual compartments. Thanks to its compact design, the trunk mat can be stowed away to the side of the luggage compartment.

### Rear seat bench plus

Rear seats with 40:20:40 split, armrest with 2 drink holders, backrest release in luggage compartment for easy folding of seats, load through compartment, back rest reclining and longitudinal adjustment

# Technology Pack

## Technology Pack - WI1

This pack brings together the most popular technology options that are frequently ordered together and offers exceptional customer value versus the price of the individual items. This pack is essential for those wanting the highest level of connectivity and navigation system.

**MMI Navigation Plus with MMI touch.** In addition to standard MMI Radio Plus\*, includes the following:

- ▶ 8.3" high resolution, colour MMI display with aluminium frame
- ▶ Touch-sensitive control panel for fast, intuitive operation, handwriting recognition, and ability to move and zoom freely on the map
- ▶ Integrated navigation with 3D map display of places of interest
- ▶ Online map updates
- ▶ Detailed route information: map preview, choice of alternative routes, POIs, lane recommendations, motorway exits, detailed junction maps and more
- ▶ Dynamic route guidance traffic updates with TMCpro (in conjunction with Audi Connect: traffic information online, where available through 3rd party providers)
- ▶ MMI search: Free text search with intelligent suggestions provided during entry
- ▶ Natural voice recognition
- ▶ Jukebox hard drive memory for music (10 GB)
- ▶ DVD drive for music CDs and video DVDs
- ▶ 2xSDXC memory card reader.

MMI Navigation with MMI Touch

**Audi connect-** Access to a portfolio of services on Audi connect for 3 years is included in the package. Please note a data connection is necessary to avail of these services and additional charges will be incurred when using the services. Services on Audi connect include: Navigation with Google Maps and Google Earth, Online News, Point of Interest Search, Twitter, Plane and Train Information.

Audi connect

**Audi Virtual Cockpit** Innovative 12.3” full colour digital instrument cluster for the flexible display of information tailored to the driver’s needs. Displays the following:

- ▶ Vehicle/engine speed
- ▶ 3D Navigation map
- ▶ Audi Connect services
- ▶ Radio/media information
- ▶ Driver assistance systems
- ▶ All MMI functionalities (e.g. Telephone, Car settings etc).

The ‘view’ button on the multi-function steering wheel allows you to change between 2 differently sized representations of the instrument dials.

**Audi Phone Box with wireless charging** Offers improved reception quality and wireless charging (with Qi enabled compatible phones). For more information, see full option description of Audi Phone Box on page 99. Audi Phone Box option also provides an additional bluetooth interface for a second device meaning two mobile phones can be connected to the vehicle simultaneously.

# Comfort & Sound Pack

## Comfort & Sound Pack - WI2

This pack brings together the most popular comfort items twinned with Bang & Olufsen 3D sound system that are frequently ordered together and offers exceptional customer value versus the price of the individual items. This pack is essential for those wanting the highest level of comfort.

### Bang & Olufsen 3D Sound System-

The ultimate premium sound experience in your Q5 with concert hall acoustics and for the first time, with 3D stereo surround sound. The system features 19 loudspeakers, including a subwoofer and centre loudspeaker and a 16-channel amplifier with an impressive total output of 755 watts. The natural 3D surround sound is created with additional speakers in the A-pillar, which now create a new height dimension in sound in addition to depth and width. This creates a previously unknown feeling of space in the car. Includes speed sensitive volume adjustment and illuminated loudspeakers within the front doors.

**3-zone climate control-** with separate air distribution and digital display for driver and front passenger, the system also includes air

conditioning controls in the rear centre console for the rear passenger compartment. Sunlight dependent control, the system electronically regulates the air temperature, air flow rate and air distribution. Automatic recirculation mode by means of air quality sensor, combined filter, rear vents and humidity regulation for more efficient climate control.

### Comfort key including sensor control for luggage compartment

- Doors and luggage compartment lid can be opened and locked without actuating the key carried with you. Touching the door handles or handle strip on the luggage compartment lid respectively unlocks the doors and luggage compartment automatically. Moving your foot (in a kicking movement) below the rear bumper allows the luggage compartment lid to swing open automatically.

# Black Pack

## Black Pack - WI4

This pack brings together the most exterior styling items twinned with 20" 5-arm titanium look alloy wheels that are frequently ordered together and offers exceptional customer value versus the price of the individual items. This pack is essential for those wanting the highest level of comfort.

### Audi exclusive black styling pack-

Radiator grille frame, window trims and fog-light surrounds in high-gloss black with radiator grille in matt black.

**Dark tinted glass** - Dark tinted rear and rear-side windows from B-pillar backwards

**20" 5-arm titanium look alloy wheels** - Audi Sport cast aluminium 5-arm offroad design, matt titanium look alloy wheels - machine polished

### Black roof rails

# Technology - Audio & communication

Your options for infotainment and connectivity.

## Audi Virtual Cockpit

Innovative 12.3-inch full colour digital instrument cluster for the flexible display of information tailored to the driver's needs. Displays the following: ▶ Vehicle/engine speed ▶ 3D Navigation map ▶ Audi Connect services ▶ Radio/media information ▶ Driver assistance systems ▶ All MMI functionalities (e.g. Telephone, Car settings etc). The 'view' button on the multi-function steering wheel allows you to change between two differently sized representations of the instrument dials. The display with small instruments allows the onboard computer and MMI contents to be shown across the full display area.

## MMI Navigation (SD card based)

In addition to standard MMI Radio Plus, includes the following:

- ▶ Integrated navigation with 3D map display
- ▶ Detailed route information: map preview, choice of alternative routes, POIs, lane recommendations, motorway exits, detailed junction maps and more
- ▶ Dynamic route guidance with TMCpro (in conjunction with Audi Connect: traffic information online)
- ▶ MMI search: Free text search with intelligent suggestions provided during entry
- ▶ Natural voice recognition
- ▶ 2xSDXC memory card reader

For details on MMI Navigation please refer to the Glossary on page 110

## Audi Phone Box with wireless charging

Enables drivers to use their mobile phone in the car by placing it in the storage compartment provided in the front centre console to create a wireless connection to the vehicle aerial, improving reception quality. Operated via the MMI control panel, the multi-function steering wheel or the voice control system. Wireless charging available (with Qi enabled compatible phones) or via USB port. For information on compatible mobile phones please see audi.ie. Audi Phone Box option also provides an additional Bluetooth interface for a second device meaning two mobile phones can be connected to the vehicle simultaneously.

All pricing is RRP including VAT. Option pricing is based off VRT band A4.

Options are subject to availability and may extend delivery.

# Technology - Driver assistance

## Assistance City Pack PCM

With busier roads than ever, Audi technology can keep an extra eye out. This pack brings together the driver assistance systems that support city driving, especially when driving in congestion and varying average speed limit zones. As well as helping you to drive more efficiently, the pack also includes advanced safety systems.

**Rear view camera** - An image of the area behind the vehicle is shown on the MMI display with dynamic display modes highlighting the calculated path (steer-angle dependent). Reversing camera is concealed in the handle strip of the luggage compartment lid.

**Audi pre sense rear** - The Audi pre sense rear system uses the Audi side assist sensors and mitigates the consequences of a rear-end collision. Here, too, it closes the windows and sunroof and tensions the seat belts. If the optional front memory seats are on board, they move into a better position for the passengers.

**Audi side assist** - The lane change assistant Audi side assist is available for a whole host of Audi models. It monitors the traffic behind the vehicle and warns the driver as necessary prior to critical lane changes.

Rear view camera

Active side Assist\*

\*Vehicle driver assistance and safety systems are not a substitute for attentive driving. Drivers retain full responsibility for providing the necessary inputs for safe control of the vehicle. System descriptions within this brochure are provided for information purposes only. System limitations and operational requirements apply. See manual for details.

## Other Driver Assistance Systems

Adaptive Cruise Control with Stop & Go and Traffic jam assist\*\*

### Adaptive Cruise Control with Stop & Go and Traffic jam assist

- Automatic distance regulation, using radar sensors to maintain the required distance between vehicles ahead by braking and accelerating. With the Stop & Go function, the system brakes the car to a stop. The driver can select from 5 warning thresholds and influence the systems acceleration behaviour via Audi Drive Select. Traffic jam assist detects vehicles ahead and on adjacent lanes to assist with the braking, acceleration and also steering up to 50kph, to keep the vehicle in lane. Adaptive cruise requires additional sensors in the lower air inlets, and results in a change to the design of the inlets and differs dependant on trim.

Predictive efficiency assistant\*\*

### Predictive efficiency assistant

- The system uses navigation data e.g. speed limits, traffic signs, road bends, junctions and roundabouts to give the driver efficiency advice in the instrument cluster (or via the optional Audi Virtual Cockpit). In conjunction with the Adaptive Cruise Control (ACC), the system uses the route data and speed limits to adjust the ACC desired speed and cornering accordingly. With automatic transmissions, the system activates free-wheeling mode or engine braking, which can help reduce fuel consumption up to 10% and enhances ride comfort.

		SE	S line
PCM	<b>Driver Assistance Pack - City</b>	€1,012	€1,034
UH2	<b>Auto-release function</b>	€114	€117
8T8	<b>Adaptive cruise control</b>	€1,052	€1,075

All pricing is RRP including VAT. Option pricing is based off VRT band A4. Options are subject to availability and may extend delivery.

# Technology - Driver assistance

## Parking Assistance Pack PCF

Enhancing the rear parking sensors that come as standard, this pack adds front sensors and all-round cameras to optimise your view while parking - and can even help you find and manoeuvre into a parking space.

**360° cameras** - Wide angle lenses cover the close range around the vehicle. The driver can choose between different image representations in the MMI display, including a live “bird’s eye view” image for parking. Includes guidelines which help the driver manoeuvre and navigate the vehicle into the right position.

**Parking assist** - Searches for suitable parking spaces along the road by means of ultrasonic sensors, calculates the ideal parking path and performs the steering action virtually automatically. Steering is done by the vehicle; the driver need only accelerate and apply the brakes.

Parking assist

		SE	S line
PCF	<b>Parking Assistance Pack.</b> Only available with optional mirrors (6XE, 6XF, 6XL) and Technology Pack (TBC)	€1,380	€411

All pricing is RRP including VAT. Option pricing is based off VRT band A4.

Options are subject to availability and may extend delivery.

## Parking Assistance Pack Advanced PCZ

In addition to the contents of the Parking Assistance Pack, this pack includes the latest technology to provide help in busy traffic situations, when changing lane, exiting your car and when reversing - for the convenience and protection of all occupants.

Cross Traffic Assist Rear

**Audi Pre-sense Basic** - Audi pre-sense is a comprehensive technical package for identifying dangers well in advance and intervening appropriately to provide extra safety and protection. Where necessary, actions are taken to protect the driver and passengers from a potential collision. These include: belt tightening, activating the hazard warning system, closing the windows and the sunroof (if fitted).

**Audi Pre-sense Rear** - It monitors vehicles following from behind and if a potential collision is detected, the driver is first warned visually via flashing light, then Audi Pre-sense basic measures (e.g. closing windows) are initiated and then if a collision is unavoidable, the system will tighten the front seat belts. The system is deactivated when towing.

**Audi Side Assist** - Aids the driver when changing lane.

Audi side assist monitors the area behind the vehicle, using radar sensors located discreetly in the rear bumper, informing the driver with a visual warning signal in the door mirror if there is a vehicle in their blind spot or approaching quickly from behind.

**Cross Traffic Assist Rear** - Warns the driver of traffic crossing behind their own vehicle when reversing. The system alerts the driver first visually and then acoustically via the MMI, and then applies the brakes if a potential collision is detected.

**Exit Warning** - Monitors the rear and side of your stationary Q5 and warns the occupants via a warning light on the door before they exit that vehicles/cyclists are approaching from behind.

Exit warning

		SE	S line
PCZ	<b>Parking Assistance Pack Advanced.</b> Only available with optional mirrors (6XE, 6XF, 6XL) and Technology Pack (TBC)	€2,220	€2,269

Vehicle driver assistance and safety systems are not a substitute for attentive driving. Drivers retain full responsibility for providing the necessary inputs for safe control of the vehicle. System descriptions within this brochure are provided for information purposes only. System limitations and operational requirements apply. See manual for details.

# Technology - Driver assistance

## Advanced options to help you on and off the road.

### Head-up display

Projects warning messages or driving-related information from assistance systems and the navigation system (if ordered) in full colour onto the windscreen in the driver's direct field of vision, giving the driver faster access to information. Display is adjustable in height.

### Camera-based traffic sign recognition

Speed limit and traffic sign display via the Driver's Information System (DIS) or optional Head-up display. Detects the following signs: speed limits (including temporary limits), overtaking restrictions and no-entry warnings.

### Rearview camera

An image of the area behind the vehicle is shown on the MMI display. Reversing camera is concealed in the handle strip of the luggage compartment lid.

### Advanced key with electric hands-free boot opening system

Access and authorisation system that works through automatic data exchange between key and vehicle, allowing the driver to keep their car key in their pocket or bag at all times. To unlock and open, simply lift the exterior door handle. Pressing the Start/Stop button integrated in the centre console starts and stops the engine. Also includes an electric hands-free bootlid release sensor located underneath the rear bumper, which can be operated by a simple kicking movement underneath the sensor.

# Audi Genuine Accessories

## Personalise your Audi today.

Make your Audi Q5 your own by adding some genuine accessories. All created by Audi and specially crafted for our models, so they'll deliver the high standards you'd expect. What you see here is just a selection.

### Rubber/Textile floor mats

Protect the Q5 interior from muddy feet and daily wear and tear.

### Boot liner

Avoid damage while loading and unloading luggage.

### Roof bars

Transport larger items, from bikes to snowboards.

### Roof box

Add to the Q5's already generous luggage capacity.

### Audi entertainment mobile

Keep rear seat passengers entertained with the double screen package.

### Laptop bag

Keep everything organised while you travel.

# Q5 technical data

## Key information about your car.

All of our Q5 engines meet EU6 emissions standards. For Diesel engines, this means the addition of an AdBlue® tank to ensure compliance. The AdBlue® tank size for your engine is shown below and it may require a top-up between services.

	Diesel				Petrol
